INDEX OF SUBJECTS

Agricultural potential and genetic diversity in *Phaseolus vulgaris* (Froussios), 129

Agronomic characters in sesame, correlation studies of some (Osman Khidir and El Gizouli Osman), 27

Air-filled pore space and soil water, emergence of crops in clay soils of the Central Sudan rainlands in relation to (Hack), 287

Brassica campestris L., genetic studies of two crosses of (Joarder and Eunus), 351

Beans, water relations of. II. Effects of differential irrigation on yield and seed size of broad beans (El Nadi), 107

Bread wheat in Kenya, effects of CCC on (Seitzer), 255

Cacao beans, viability of (Ashiru), 341

CCC, effects of, on bread wheat in Kenya (Seitzer), 255

Chrysanthemum cinerariaefolium (pyrethrum), visual symptoms of some mineral deficiencies on (Pinkerton), 19

Cocoa nutrition, a preliminary survey of, in relation to dieback disease in Papua–New Guinea (Drover), 33

Coffea arabica L. in Kenya, floral initiation and flowering of (Wormer and Gituanja), 157

Cotton in the Sudan Gezira, effects of N, P and K on yields of (Burhan and Mansi), 279

Cotton in Uganda, effects of spraying and cultural practices on (Davies), 65

Cowpea (*Vigna unguiculata* (L.) Walp.), effect of day-length and water on nodulation of, in Ghana (Doku), 13

Crop production potential and energy conversion efficiency in different environments (Gibbon, Holliday, Mattei and Luppi), 197

Day-length and water, effect of, on nodulation of cowpea (*Vigna unguiculata* (L.) Walp.) (Doku), 13

Dieback disease, a preliminary survey of cocoa nutrition in relation to, in Papua–New Guinea (Drover), 33

Dry rice (hill padi) in Sarawak, Malaysia, experiments on the fertilization of (Dunsmore), 239

Emergence of crops in clay soils of the Central Sudan rainlands in relation to soil water and air-filled pore space (Hack), 287

Energy conversion efficiency and crop production potential in different environments (Gibbon, Holliday, Mattei and Luppi), 197

Evaporation, variability of potential, in East Africa (Woodhead and Waweru), 51

Fertility studies on sandy loam in semi-arid Tanzania. I. Effects of nitrogen, phosphorus and potassium fertilizers on yields of maize and soil nutrient status. II. Effects of phosphorus, potassium and lime on yields of groundnuts (Anderson), 1, 213

Floral initiation and flowering of *Coffea arabica* L. in Kenya (Wormer and Gituanja), 157

Foliar analysis as a guide to NPK nutrition of pineapples in the forest zone of Ghana (Godfrey-Sam-Aggrey), 327

Foliar analysis of tea (Willson), 263

Foliar composition of the oil palm in West Malaysia. I. Variation in leaf nutrient levels in relation to sampling intensity. II. The relationships between nutrient contents. III. Differences in leaf composition between leaf types (Poon Yew Chin, Varley and Ward), 113, 191, 335

Forest fertilization (*Walddüngung*), reviewed by Blanche Benzian, 268

Fumure, la, du palmier à huile, by M. Comhaire, reviewed by C. W. S. Hartley, 177

Genetic diversity and agricultural potential in *Phaseolus vulgaris* (Froussios), 129

Groundnut and maize, experiments on, using micro-plots (Walters and Chin Nyeok Yoon), 359

Hill padi (dry rice) in Sarawak, Malaysia, experiments on the fertilization of (Dunsmore), 239

Jute, effect of competition in (Chaudhuri and Basak), 223

Legumes in the Sudan, nodulation of. II. Rhizobium strains and cross-inoculations of *Acacia* spp. (Habish and Khairi), 171

Maize and groundnut, experiments on, using micro-plots (Walters and Chin Nyeok Yoon), 359

Mangifera indica L. (mango), growth and flowering of (Teaotia, Pandey and Upadhyay), 57
Mango (*Mangifera indica* L.), growth and flowering of (Teaotia, Pandey and Upadhyay), 57
Methodological achievements, some, of the Hungarian hybrid maize breeding, by I. Kovács, reviewed by R. E. Gunn, 366
Mineral deficiencies, visual symptoms of some, on pyrethrum (*Chrysanthemum cinerariaefolium*) (Pinkerton), 19

Nodulation of cowpea (*Vigna unguiculata* (L.) Walp.), effect of day-length and water on, in Ghana (Doku), 13
Nodulation of legumes in the Sudan. II. Rhizobium strains and cross-inoculations of *Acacia* spp. (Habish and Khairi), 171
NPK nutrition of pineapples in the forest zone of Ghana, foliar analysis as a guide to (Godfrey-Sam-Aggrey), 327

Oil palm in West Malaysia, foliar composition of the. I. Variation in leaf nutrient levels in relation to sampling intensity. II. The relationships between nutrient contents. III. Differences in leaf composition between fruit types (Poon Yew Chin, Varley and Ward), 113, 191, 335
Oxford book of food plants, by S. G. Harrison, G. B. Masefield, B. E. Nicholson and M. Wallis, reviewed by G. C. Stevenson, 269

Paraquat in Queensland, pre-harvest desiccation of sugar cane with (Arvier), 309
Perennial crops on smallholders' fields in Africa, extensive trials with (Robinson), 271
Pests of oil palms in Malaysia and their control, by Brian J. Wood, reviewed by R. J. A. W. Lever, 79
Pests of rice, by D. H. Grist and R. J. A. W. Lever, reviewed by M. H. Breese, 177
Petiole nitrate content, growth of sugar beet (var. Polygrave) in relation to (Albasal, Dor, Carmeli and Kafkafi), 151
Phaseolus vulgaris L., genetic diversity and agricultural potential in (Froussios), 129
Pineapples in the forest zone of Ghana, foliar analysis as a guide to NPK nutrition of (Godfrey-Sam-Aggrey), 327
Population and food supply, ed. by Sir Joseph Hutchinson, reviewed by N. W. Pirie, 270
Potato varieties in India, problems of (Pushkarnath), 181
Powdery mildew on roses, effects of application techniques on the control of (Vigodsky and Zieslin), 123
Pre-harvest desiccation of sugar cane with paraquat in Queensland (Arvier), 309
Principal component analysis, use of, on data from chemical analysis of tea leaves (Willson and Freeman), 319
Pyrethrum (*Chrysanthemum cinerariaefolium*), visual symptoms of some mineral deficiencies on (Pinkerton), 19

Rainfall, expected, and Kenya agriculture—confidence limits for large areas at minimum cost (Woodhead, Waweru and Lawes), 87
Rainfall, seasonal, confidence limits for: their value in Kenya agriculture (Woodhead), 81
Root penetration of smeared soil surfaces (Prebble), 303
Roses, effects of application techniques on the control of powdery mildew on (Vigodsky and Zieslin), 123

Sesame, correlation studies of some agronomic characters in (Osman Khidir and El Gizouli Osman), 27
Silicon, needs of sugar cane for, when growing in highly weathered latosols (Wong You Cheong and Halais), 99
Sisal, by G. W. Lock, reviewed by C. C. Webster, 80
Smeared soil surfaces, root penetration of (Prebble), 303
Snap beans, effects of variety, season and maturity on yield and quality of single-harvest (Palevitch), 245
Soil fertility, effects of, on yield and juice quality of sugar cane (Pande and Tilak), 205
Soil fertility under continuous cultivation in Northern Nigeria. I. The role of organic manures (Heathcote), 229; II. Responses to fertilizers in the absence of organic manures (Heathcote and Stockinger), 345
Soil water and air-filled pore space, emergence of crops in clay soils of the Central Sudan rainlands in relation to (Hack), 287
Sorghums, breeding and testing dwarf, in Nigeria (Andrews), 41
Sugar beet (var. Polygrave), growth of, in relation to petiole nitrate content (Albasal, Dor, Carmeli and Kafkafi), 151
Sugar cane, effects of soil fertility on yield and juice quality of (Pande and Tilak), 205
Sugar cane, needs of, for silicon when growing in highly weathered latosols (Wong You Cheong and Halais), 99
Sugar cane, pre-harvest desiccation of, with paraquat in Queensland (Arvier), 309

Tea, foliar analysis of (Willson), 263
Tea leaves, use of principal component analysis on data from chemical analysis of (Willson and Freeman), 319
Tropical agriculture, by Gordon Wrigley, reviewed by R. W. Kettlewell, 267

Vigna unguiculata (L.) Walp. (cowpea), effect of day-length and water on nodulation of, in Ghana (Doku), 13

Water and day-length, effect of, on nodulation of cowpea (*Vigna unguiculata* (L.) Walp.) (Doku), 13
Water relations of beans. II. Effects of differential irrigation on yield and seed size of broad beans (El Nadi), 107
Wheat yields in the Sudan Gezira, effects of sowing date, nitrogen and seed rate on (Khalifa), 143
World crop protection. Vol. I. *Pests and diseases*, by J. H. Stapley and F. C. H. Gayner. Vol. II. *Pesticides*, by K. A. Hassall. Reviewed by Hubert Martin, 179

INDEX OF AUTHORS

ALBASAL, N., DOR, Z., CARMELI, R. and KAFKAFI, U. Growth of sugar beet (var. Polygrave) in relation to petiole nitrate content, 151

ANDERSON, G. D. Fertility studies on a sandy loam in semi-arid Tanzania. I. Effects of nitrogen, phosphorus and potassium fertilizers on yields of maize and soil nutrient status. II. Effects of phosphorus, potassium and lime on yields of groundnuts, 1, 213

ANDREWS, D. J. Breeding and testing dwarf sorghums in Nigeria, 41

ARVIER, A. C. Pre-harvest desiccation of sugar cane with paraquat in Queensland, 309

ASHIRU, G. A. Viability of cacao beans, 341

BASAK, S. L., *see* CHAUDHURI, B. B.

BENZIAN, BLANCHE. Review of *Forest fertilization* (*Walddüngung*), 268

BREESE, M. H. Review of *Pests of rice*, by D. H. Grist and R. J. A. W. Lever, 177

BURHAN, H. O. and MANSI, M. G. Effects of N, P and K on yields of cotton in the Sudan Gezira, 279

CARMELI, R., *see* ALBASAL, N.

CHAUDHURI, B. B. and BASAK, S. L. Effect of competition in jute, 223

CHIN NYECK YOON, *see* WALTERS, D. E.

DAVIES, J. C Effects of spraying and cultural practices on cotton in Uganda, 65

DOKU, E. V. Effect of day-length and water on nodulation of cowpea (*Vigna unguiculata* (L.) Walp.), 13

DOR, Z., *see* ALBASAL, N.

DROVER, D. P. A preliminary survey of cocoa nutrition in relation to dieback disease in Papua–New Guinea, 33

DUNSMORE, J. R. Experiments on the fertilization of dry rice (hill padi) in Sarawak, Malaysia, 239

EL GIZOULI OSMAN, H., *see* OSMAN KHIDIR, M.

EL NADI, A. H. Water relations of beans. II. Effects of differential irrigation on yield and seed size of broad beans, 107

EUNUS, A. M., *see* JOARDER, O. I.

FREEMAN, G. H., *see* WILLSON, K. C.

FROUSSIOS, GEORGE. Genetic diversity and agricultural potential in *Phaseolus vulgaris* L., 129
